Lab: Question Answering with Fine-Tuned BERT
and other transformer models

In this lab, you will learn how to use fine-tuned transformer models for question answering.

1. Running the Jupyter Notebook

1.1. Copy the **notebook files** downloaded from the class website to
C:\Users\youraccountname\documents\python\IS6751

1.2 Open a Jupyter Notebook:

- File – Open ..., **Question Answering with a Fine-Tuned BERT-v3.ipynb** in
C:\Users\youraccountname \documents\python\IS6751\wk12-lab
- Run the notebook document step-by-step (one cell a time)
